

Aquanil-X

Waterless Car Wash with Protective Polymers and Waxes

CCPCG005 32 Ounce trigger Spray

Product Overview

Wash & Wax you car in minutes with no water, anytime, anywhere. CroftgateUSA has developed the best waterless wash with waxes and paint finish available to keep your ride be it a car, bike, jet-ski, plane, truck looking better than new – AQUANIL-X. The blend of biodegradable detergents, advanced polymers and waxes first breaks down and then suspends dirt and grime – it then replaces the dirt with a protective layer polymer and waxes- leaving your vehicle clean, waxed and with a deep protective shine you will be proud of.

Product Benefits

Each 32 ounce bottle will treat from 6 to 9 full size cars depending on their condition
 Cuts traditional washing and waxing by hours!
 Contains multiple waxes and polymers for shine and protection
 Does not contain any Listed Hazardous ingredients, or Petroleum Solvents
 Easy wipe on - wipe off technology.
 Use it anywhere, anytime
 Stops water with pollutants running into our drains and water tables
 saves the 100's of gallons in water wasted to wash the traditional way

Recommendations for Use

Needed: 2 microfiber towels each folded two times. Begin at the top of the vehicle working your way down.

1. Take a clean microfiber towel and spray it a few times to pre-wet the surface.
Pre-wetting is done only the first time you use a microfiber towel.
2. Spray few times onto the area of the surface to be cleaned. (Area can be the size of a door)
3. Using the pre-wet towel, wipe area in a circular or back and forth motion until clean
4. Immediately use the 2nd clean dry microfiber towel and wipe area dry
You will know when to stop as the area will feel slicker and have a brilliant polished look.
5. Repeat steps 1-3 until entire car is done.
Pre-wetting is only done the first time you use a new microfiber towel to wash with.

See how much water gets used in a minute when washing the old way?
