- Easy wipe on - wipe off technology.
- Use it anywhere ,anytime
- Stops water with pollutants running into our drains and water tables
- Saves the 100's of gallons in water wasted to wash the traditional way.
- Use on paint, glass and chrome areas

Recommendations for Use

Needed: 2 microfiber towels each folded two times. Begin at the top of the vehicle working your way down.

1. Take a clean microfiber towel and spray it a few times to pre-wet the surface.

Pre-wetting is done only the first time you use a microfiber towel.

2. Spray few times onto the area of the surface to be cleaned. (Area can be the size of a door)

3. Using the pre-wet towel ,wipe area in a circular or back and forth motion until clean

4. Immediately use the 2nd clean dry microfiber towel and wipe area dry

You will know when to stop as the area will feel slicker and have a brilliant polished look.

5. Repeat steps 1-3 until entire car is done.

How much water gets used in a minute when washing the old way?
